Garvinea®

Perennial Gerbera

Garvinea
Orangina

Garvinea
Sunny

Garvinea Fleurie

Garvinea Lisa

Garvinea Sylvana

***New hardy Garvinea®
are a revolution in the Gerbera world.***

Garvinea® will bloom right through
spring
to late autumn – outdoors!
And they will over-winter for a
fresh display the following spring.

Garvinea® flowers are smaller than
indoor gerberas,
but they make up for their size with
the sheer number open at any one
time and the length of flowering.
