

SPREADING CRAZE PETUNIA

The new breed of Petunia on the block.

Craze Petunia will spread 1m, growing only 25cm tall producing a 'Living Mulch'.

Keeping soil cool and moist, suppress weed growth, and help to promote the health and vigor of the plants growing above them.

Craze Petunia is highly effective at covering bare soil between shrubs and other plants, creating it's own landscape statement.

Due to its vigorous, yet contained growth, one plant can replace up to 10 normal petunias, making a considerable cost saving.
