EVERGREEN CONNECT STOCK LEVELS GOING LIVE!!!

in an exciting development to help our stock management we are going live with stock levels on Evergreen Connect. It is something that we have been working towards for some time and is finally happening! What this means for you is that you will be less likely to order something that we will no longer have in stock when we come to pick your order (I am sure there will be teething problems but our aim is to dramatically increase our ability to fulfill orders and to help you with your own stock control).

We STRONGLY ENCOURAGE you to use Evergreen Connect to complete your orders to enable the greatest accuracy. Over time we plan to DISCONTINUE this AVAILABILITY LIST as we cannot guarantee this list will accurately reflect stock on ground. Also, seedlings with smaller numbers will appear only on Evergreen Connect from now on to ensure greater accuracy.

We are very excited by the prospect of helping everyone know that what they order is what they are likely to receive. We may need a little time to get this running smoothly but we are hoping it will be helpful to all.

270mm B Range Hanging Baskets

2 per box	Bar Code	Foliage	Buds	Flowers

'IMPORTANT NOTE'

ORDERING SEEDLINGS ON EVERGREEN

Ordering seedlings (and pots) on Evergreen Connect is by far the the most efficient and accurate way to order, especially now that we have live numbers.

To keep it accurate please make sure that you order in the **number of punnets required** (not trays). For example, to order one full tray of My Vegetable seedlings you will type **10** in the Quantity box.
